

Roücke HD

Ultimate High Definition Structured Panels

Made with the deepest structured melamine panels in North America, Roücke HD can enhance any space with the strength, texture, and aesthetic appeal of natural materials.

- **Structured Melamine** - using heat and pressure the thermofused laminated panels have the decorative texture and appearance of real woodgrain patterns.
- **Extremely Durable** - made by fusing the finest-quality melamine paper onto our premium western pine industrial core.
- **Panel to Panel Consistency** - expertly manufactured to ensure color, surface, and core qualities are consistent panel to panel.
- **Low Maintenance Material** - easy to clean with damp cloth or nonabrasive cleaning products.
- **Interior Design** - perfect for interior surfaces such as cabinets, vanities, closets, and furniture. Also strong enough for store fixtures and displays.

Company Standards

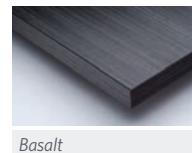

- **Stock and Lead Time** - all materials are stocked on site at our Denver Headquarters to quickly and efficiently deliver products at a 10-day lead time.
- **Industry Experience** - nearly 30 years of high-volume panel manufacturing.
- **Automated Warehouse** - modern technology and intelligent process design give us the ability to deliver complete programs of components, fixtures, panels, parts and doors.
- **Process Intelligence** - convergent manufacturing system that guarantees the final product is engineered with precision and quality at an unmatched manufacturing speed.

Endless Interior Design Options

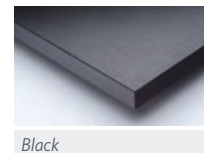

- **Colors and Edgebanding** - offered in 12 woodgrain patterns and three solid colors with perfectly matched laser edgebanding with no glue lines.
- **Panel and Component Sizes** - stocked 4' x 8' panels in 1/4" MDF and 3/4" particleboard. Finished door and drawer components also available.
- **Matching Vinyl Options** - vinyl material available in nine of the eleven colors as an additional product offering.
